UTILITIES BOARD

IN RE: LOCAL EXCHANGE CARRIERS	DOCKET NOS. TCU-96-4, et al.
---------------------------------------	------------------------------

**NOTICE OF CANCELLATION OF CERTIFICATES
AND REJECTION OF TARIFFS**

(Issued August 7, 2003)

On January 9, 2003, the Utilities Board (Board) mailed annual report forms to each of the local exchange carriers possessing (or approved for) a certificate of public convenience and necessity to provide service in Iowa, pursuant to Iowa Code § 476.29 (2003). The forms were mailed to the carriers at the addresses on file with the Board. As shown on the attached list (identified as Attachment A), five of the certificated carriers failed to return the forms; eight other certificated carriers returned the forms showing they had no regulated revenues in Iowa in 2002.

Attachment A also lists 37 other CLECs that have been approved for certificates, but that never filed the tariffs or maps required to actually obtain a certificate. These CLECs also either failed to return the annual report or reported no regulated revenues for 2002.

Based on this information, it appears the carriers identified in Attachment A are not providing landline local telephone service in Iowa and should not be permitted to continue to hold certificates for that purpose. Therefore, the Board will cancel the

certificates or certificate approvals issued to each of the carriers identified in Attachment A and reject the associated tariffs (if a tariff has been filed) 30 days from the date of this order unless the Board is contacted by the carrier and provided with appropriate information indicating why the carrier's certificate should not be canceled and its tariff should not be rejected. Such a filing could include, for example:

1. For a carrier that did not file a 2002 annual report, the filing should include an annual report showing that the carrier had revenues from certificated services in 2002 or a statement that it did not have such revenues in 2002 but it has reasonable plans to offer in the near future services that are likely to produce such revenues;
2. For a carrier that filed an annual report showing no revenues from certificated services, provide updated information demonstrating that the carrier does, in fact, provide services in Iowa that require a certificate of public convenience and necessity or that the carrier has reasonable plans to provide such services in the near future, with corrected annual report information, if necessary; or
3. For a carrier that has been approved for a certificate but has never taken the final steps necessary to receive a certificate, provide information regarding its plans for filing a proposed tariff and maps or otherwise completing the process of obtaining a certificate.

Any carrier providing that updated information should file the information in the TCU docket in which the carrier's certificate was issued or approved. If a carrier makes a timely filing as described above, its certificate will not be canceled and its tariff will continue to be in effect (or its certificate approval will continue) until further order of the Board.

Finally, the Board will direct that a copy of this order should be mailed to each of the carriers shown on Attachment A at the carrier's last known address and another copy should be placed in each of the TCU dockets shown on Attachment A.

IT IS THEREFORE ORDERED:

The carriers identified in Attachment A are directed to contact the Board with updated corporate information within 30 days of the date of this order. If the Board does not receive a response from a particular carrier within 30 days of the date of this order, the certificate of public convenience and necessity or approved application issued to that carrier by the Board will be deemed canceled without any further action by the Board.

UTILITIES BOARD
